

The individual service provided by NEITZEL CREATION

Samples and neutral containers for volume tests

The table of measure is the basis for all sizes of PUTinBOX® figure-shaped containers, which are also available as samples. For volume tests individual and neutral container sizes are possible.

There are three important production groups, two of them are for individual customer demand

1. Group figure-shaped containers of our standard collection
2. Group are figure-shaped containers which, according to your specifications, can be completed and printed with the individual declaration of your company .
3. Group are customized figure-shaped containers for your sales programme, designed and produced by us in two different variations:
 - 3.1 Creation of a new artwork using an existing plastic cap (closure-lid)
or
 - 3.2. Creation of a new artwork and a new individual cap form.
This entails the production of a new tooling for injection moulding.
See below: Cap tooling and cost

For group 2 and 3 printing modification and preparatory work is necessary

This comprises for example logo, contents, printing or the barcode as well as the entire printing preparation such as lay out, photo setting, repro, lithofilms, matchprint and printing plates for the figure-shaped containers with completely new label design as described in group 2 and 3.

According to size and preparation there will be a one-time, shared cost.

Prototypes, handmade model and test series

Prototypes for newly designed containers and caps will be made.

We are specialized in making model series of the new containers and caps before printing and tooling begins.

Following the model series, small test series of a quantity of 1,000 - 5,0000 complete units are possible.

The costs for development of a specific PUTinBOX® figure-shaped container will be calculated and agreed upon with our customer beforehand.

Cap tooling and costs

Tooling and shared costs will be made and invoiced in three steps.

With the subsequent production of the plastic parts the shared cost will be totally amortized.

Exclusive sales agreement

For large quantities beginning with a yearly production of 500,000 pcs. we can offer you an exclusive sales agreement.

Agreement with the customer

All important phases of development and designing will be agreed upon with the customer beforehand.

Please note

Without exception, our delivery and payment terms apply for all work. These terms and conditions are available on request.
